You’re trapped in the **FUN HOUSE**! How do you find your way out?! You start the game with three rollerbladers. If you maneuver your way out of one room in the limited amount of time, you go on to the next room. But to move on, you must smack all the targets with your tomatoes as you whiz by. Pick up the power objects to gain advantages like more rollerbladers or more time.

It’s a slippery, slimy trip through 72 rooms, full of blobs and boingers, flying banana chips and schmutz balls. So getting through the rooms gets harder and gooier as you go along. Have fun!

---

**Getting Started**

- Make sure your Nintendo Entertainment System is turned off before inserting the **FUN HOUSE** Game Pak.
- Insert the **FUN HOUSE** Game Pak.
- Press POWER.

Once the title screen appears, press the START button on Controller Pad #1 to begin a game. Let’s get messy and good luck!
As you maneuver through rooms full of slime and obstacles, you’ll find the name of each room often gives you some clue about it. The rooms vary a lot. The backgrounds and floors you rollerblade across will definitely affect your progress. For instance, when you travel over the icky slime-covered ramps, the floor stops you around in one of four directions, making control just a little bit difficult. Yuk! On wet icy floors, speeding up is easy; slowing down...not so easy! Now be sure to pick up plenty of power objects like coins, clocks, sneakers and hidden prizes to give yourself extra players, time, speed, and bonus points. When you smack the last target in a room, it will reveal a key which you must pick up to enter the next room. So let’s get down and get dirty!

TIP: Rollerblading backwards on slime-covered ramps can make it easier to slow down or stop. On ice, it's the only way to slow down or stop.
Power and Points

All the **ROUND TARGETS** must be hit before you can move on to the next level.

**NUMBERED TARGETS** must be hit in numerical order.

**STARBURSTS** rack up points -- four colors for four different amounts.

**WARP CUBES** -- Usually hidden. Find one and it sends you to another part of the Fun House. (Great for better players who want to skip ahead.)

Power Objects

**COINS**

*Silver Coins* -- Collect 25 silver coins for an extra player.

*Gold Coins* -- Each gold coin equals five silver coins.

**GLOP CLOCKS**

*Small Glop Clocks* -- Pick up these for eight extra seconds.

*Large Glop Clocks* -- These give you fifteen extra seconds.

**SNEAKERS** -- Pick these up to temporarily increase your speed.
Obstacles and Enemies

BLOB -- Slow-moving blue blobs and fast-moving red blobs bounce you back if you hit them.

BOINGER -- Hit one of these and you'll temporarily spin out of control.

BANANA LAUNCHER -- Shoots an arc of banana chips that bounce you back. Also shoots whole bananas that subtract some of your time if they hit you.

SPRAY GUN -- Shoots red schmutz balls that bounce you back AND subtract some of your time.

TIP: Boingers can be destroyed by hitting them five times with your tomatoes.

Compliance With FCC Regulations

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subject J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna
- Relocate the NES with respect to the receiver
- Move the NES away from the receiver
- Plug the NES into a different outlet so that computer and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful: How to Identify and Resolve Radio-TV Interference Problems. This booklet is available from the U.S. Government Printing Office, Washington, DC 20402, Stock No. 004-000-00345-4.

ANY APPLICABLE IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE HEREBY LIMITED TO NINETY DAYS FROM THE DATE OF PURCHASE AND ARE SUBJECT TO THE CONDITION SET FORTH HEREIN. IN NO EVENT SHALL HI TECH EXPRESSIONS BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES RESULTING FROM THE BREACH OF ANY EXPRESS OR IMPLIED WARRANTIES.
**WARNING**

Do not use with front or rear projection TV

Do not use a front or rear projection television with your Nintendo Entertainment System® ("NES") and NES games. Your projection television screen may be permanently damaged if video games with stationary scenes or patterns are played on your projection television. Similar damage may occur if you place a video game on hold or pause. If you use your projection television with NES games, Nintendo will not be liable for any damage. This situation is not caused by a defect in the NES or NES games; other fixed or repetitive images may cause similar damage to a projection television. Please contact your TV manufacturer for further information.
